

Knox Crusader with patented K-Matic
 Makes setting up a screen as simple as flicking on a light. At the push of a button, the tripod legs snap open. The hanger rod glides up. The screen case swings into a horizontal position. Then, when the show's over, the legs close automatically as you lift the screen off the floor. What's more, the Crusader has a Teak woodgrain finished case. Looks like a beautiful piece of furniture. And for fine resolution, the Crusader is equipped with micro-lenticular surface. Provides maximum brightness at any viewing angle. Sizes: 40 x 40 and 50 x 50.

Knox builds projection screens that show your films at their best. You see each scene the way you photographed it. And remembering is made more enjoyable than ever before. Peek inside and see why.

This is the kind of conversation you hear when people show slides or movies on a wall instead of a Knox Projection Screen. All the highlights, all the warmth and all the beauty are lost. It's like viewing the majesty of the Grand Canyon through rose colored glasses.
 Knox builds projection screens that show your films at their best. You see each scene the way you photographed it. And remembering is made more enjoyable than ever before. Peek inside and see why.

"I never noticed that Aunt Maude had a mole on her chin." "That's not a mole! It's a hole in the wall."

The perfect partner for your projector

KNOX precise screen surfaces for optimum picture clarity...

Silver Lenticular — This is the finest surface available for providing maximum clarity and minimum grain at any viewing angle — even in partially lighted rooms.

Micro-Beaded — Brightest surface under darkened room conditions. Made of finest, tiniest optical glass beads specially bonded to a mildew-resistant vinyl fabric. Outperforms all competitive beaded surfaces.

Matte White — This is a heavyweight vinyl, lightly embossed and specially treated screen. Ideal for use where a wide viewing angle and close up definition of detail is more important than brightness.

Knox protective case

An attractive flame and mildew resistant vinyl case available to protect your screen. Heavy duty zipper provides wide, easy to use opening. Screen handle protrudes for easy carrying.

Tips on choosing the right screen size

Picking the right screen size is as important to optimum quality projection as the proper screen surface. This chart will guide you in your selection of a screen after you determine the necessary projection distance and focal length of lens.

Lens Focal Length, Inches			Projection Screen Width											
Slides	Super 8mm	8mm	30"	40"	50"	60"	70"	84"	8'	9'	10'	12'		
			Distance from projector to screen in feet											
3			6	7	9	11	13	16	18	20	22	27		
4			7	10	12	15	17	21	24	27	30	36		
5			9	12	16	19	22	26	30	34	37	45		
6			11	15	19	22	26	31	36	40	45	54		
7			13	17	22	26	30	37	42	47	52	63		
8			15	20	25	30	35	42	48	54	60	72		
		¾	11	14	18	22	25	31	35	39	44	52		
		1	15	19	24	29	34	41	46	52	58	70		
		1½	22	29	36	44	53	61	70	78	87	104		
	¾		8	11	14	16	19	22	26	29	32	38		
	1		11	15	19	23	27	32	37	42	47	56		
	1½		15	21	27	32	38	45	51	57	64	77		

teak woodgrain finish

This permanent, mar resistant finish has been applied to Knox Crusader, Spectator, Holiday, Coronet, Commentator and Mercury Screens. Adds a furniture-like appearance that complements any decor.

KNOX quality wall screens

COMMENTATOR

Convenient and simple to handle. Micro-lenticular surface rolls easily into attractive Teak woodgrain case. Equipped with built-in tensioning device to hold screen perfectly taut for flawless viewing. Mounts on wall or hangs from ceiling. Sizes: 50 x 50, 60 x 60 and 70 x 70.

MERCURY

Also designed for ceiling or wall mounting to eliminate storage problems. Positive fabric roller lock and steel spring roller provide trouble free, smooth action. Case has permanent Teak woodgrain finish. Fabrics are either micro-beaded or matte white. Sizes: 40 x 40, 50 x 50, 60 x 60 and 70 x 70.

Built-in quality of Knox wall screens

Tension Handle

provides taut screen surface through patented cam action.

Steel Slat Bar

features new positive locking end caps and prevents scuffing or tearing of fabric.

Roller Lock

at both ends of steel roller prevents case twist no matter how much tension is applied.

KNOX quality tripod screens

SPECTATOR

HOLIDAY

CORONET

SPECTATOR

Designed for people who must show films in partly lighted rooms or at odd angles. Its seamless micro-lenticular surface provides fine image resolution. Also comes in Teak woodgrain case and exclusive Magnalock magnetic leg lock. Sizes: 40 x 40, 50 x 50, 60 x 60 and 70 x 70.

HOLIDAY

Offers brilliant projection on either a micro-beaded or matte white surface. Magnalock firmly holds tripod legs, yet releases at a touch. Dustproof case has permanent Teak woodgrain finish. Sizes: 40 x 40, 50 x 50, 60 x 60 and 70 x 70.

CORONET

Features a screen surface made of millions of optically polished micro-beads permanently bonded to the vinyl fabric. Assures years of flawless viewing. Another moderate priced screen with Teak woodgrain case and K-Matic automatic open and close action. Sizes: 40 x 40 and 50 x 50.

REGENT

A real screen buy that comes equipped with micro-lenticular surface and patented K-Matic action—yet at a low price. Easy to set up to provide sharp projection from any angle. Sizes: 40 x 40 and 50 x 50.

FOUR HUNDRED

Knox's lowest priced quality screen. Features lightweight sturdy construction, simple manual operation and micro-beaded surface. Sizes: 30 x 40, 40 x 40 and 50 x 50.

REGENT

FOUR HUNDRED

Built-in quality of Knox tripod screens

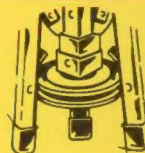

Three Position Hook
prevents image distortion when projector can't be level with screen.

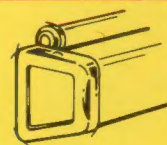

Roller Locks
on end of steel roller eliminate case twist regardless of stress applied to fabric.

Easy Grip Handle
provides smooth positive tensioning for lenticular surface.

Magnalock
magnetically holds legs in place, yet releases at a touch.

Dustproof Case
protects screen from dust and damage. Has new positive locking end caps.

Steel Slat Bar
features new positive locking end caps and prevents scuffing or tearing of fabric.
